OPEN LEVEL / SLIDING SCALE

Careful Collisions

// A QUEER-FEMINIST CI LAB

5 DAYS OF RESEARCH / RECREATION / CO-CREATION

// 5 days lab/camp for
research / recreation / co-creation

Coming together with our different bodies / identities / entanglements / needs, we will inevitably collide. How can we practice this failing, falling, and rebounding - find playfulness and pleasure in it? How do we cultivate skills to show up for ourselves and others // with care?

We will explore this together in a queer-feminist CI-research lab: Experimenting with physical / emotional / social forces and mapping out strategies, by engaging in the practices of contact improvisation / somatics / community.

What can happen, is possible.

Researching / practicing / integrating
through
labs / jams / recreation

Price scale: 340 / 420 / 500 € all inclusive
